PROFESSIONAL SUMMARY

Software Engineering student with hands-on experience developing Python applications and AI-powered solutions. Built projects using Python, C++, object-oriented programming, and LangChain. Passionate about solving real-world problems through clean, maintainable code and continuously learning modern software engineering practices. Seeking a Software Engineering internship where I can contribute to real-world projects while continuously learning and collaborating with diverse teams.

TECHNICAL SKILLS

Programming Languages: Python, C++

Core Computer Science: Object-Oriented Programming (OOP), Data Structures, Algorithms, File Handling, CSV Processing

Tools: Git, GitHub, VS Code, PyCharm, Version Control

AI: LangChain, Google Gemini API, Prompt Engineering

PROJECTS

AI Multi-Agent Research Assistant

<https://github.com/bashirrehan270-stack/ai-multi-agent-research-assistant>

Developed a multi-agent AI research assistant using Python and LangChain.

Integrated Google Gemini API and DuckDuckGo Search for automated research.

Designed a multi-agent workflow with Researcher, Writer, and Reviewer agents to automate structured report generation.

Student Record Management System

<https://github.com/bashirrehan270-stack/-Student-Record-Management-System>

Developed a Python-based student record management system using CSV storage.

Implemented CRUD operations with object-oriented programming.

Organized student records through structured file handling.

Restaurant Billing System

<https://github.com/bashirrehan270-stack/Restaurant-Billing-System>

Developed a console-based restaurant billing application in C++.

Implemented menu management, bill generation, and order processing.

Designed reusable object-oriented components to improve code organization and maintainability.

EXPERIENCE

Python Programming Virtual Internship-Decode Labs

Developed Python applications using object-oriented programming principles.

Strengthened debugging, problem-solving, and modular programming skills by developing multiple Python applications.

Completed project-based assignments during a one-month virtual internship.

EDUCATION

Bachelor of Science (BS) in Software Engineering

Federal Urdu University of Arts, Science & Technology (FUUAST) | 2025 – Present

CERTIFICATIONS

AI Agent Development • Deloitte Technology Simulation • Google Gemini Certification for Students

Python Programming

LANGUAGES

English (B2) | Urdu (Native) | Punjabi (Native)
